First Medical Associates may disclose your PHI to physicians and health care providers (including pharmacists), durable medical equipment (DME) vendors, surgery centers, hospitals, rehabilitation therapists, home health providers, laboratories, nurse case managers, worker's compensation adjusters, etc. to ensure that your medical providers have the necessary information to diagnose and provide treatment to you. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may affect the healing process. First Medical Associates may also disclose your PHI to individuals who are directly involved in your care, including family members, friends or other care providers. If you participate in a virtual visit (telehealth), your information will be shared electronically via a secure transmission to facilitate the virtual visit.
2. **Payment.** First Medical Associates may use and disclose your PHI in order to bill for services provided and collect payment from health plans or other entities. For example, we may disclose PHI to your health insurance plan so it will pay for your services, determine your eligibility for coverage, or to obtain prior approval from the insurer to cover payment for treatment. First Medical Associates also may use and disclose your PHI to obtain payment from third parties that may be responsible for such costs, including family members. First Medical Associates may also disclose your information to a collection agency to obtain overdue payment or to a regulatory agency or insurance company to determine whether the services we provided were medically necessary or appropriately billed.

For example: We may use or disclose your PHI: (1) to conduct quality or patient safety activities, population-based activities relating to improving health or reducing health care costs, case management and care coordination, and contacting your health care providers and you with information about treatment alternatives; (2) when conducting training programs or performing accreditation, licensing, or credentialing activities; (3) when conducting or arranging for medical review, legal services, and auditing functions; and (4) for our proper management and administration, including customer service, resolving complaints, strategic planning, etc. In addition, we may use or disclose de-identified information or a limited data set for certain healthcare operations purposes. We may also record your visit in order to facilitate the documentation of your care by your provider via a scribe or virtual scribe service.
4. **Appointment Reminders, Check-In and Results.** First Medical Associates may use and disclose your PHI to contact you and remind you of an appointment. First Medical Associates may use a sign-in sheet at the registration desk and call you by name in the waiting room when your provider is ready to see you. First Medical Associates may also use your PHI to contact you about test results. First Medical Associates may leave a message reminding you of an appointment or the results of certain tests, but will leave the minimum amount of information necessary to communicate this information.
5. **Treatment Options and Health-Related Benefits and Services.** First Medical Associates may use and disclose your PHI to inform you of treatment options or alternatives as well as certain health related benefits or services that may be of interest to you. First Medical Associates may also use and disclose your PHI to describe health- related products or services (or payment for such products or services) provided through your benefit plan or to offer information on other providers participating in a healthcare network that we participate in.
6. **Disclosures to Family or Friends.** First Medical Associates may disclose your PHI to individuals involved in your care or treatment or responsible for payment of your care or treatment. If you are incapacitated, we may disclose your PHI to the person named in your Durable Power of Attorney for Health Care or your personal representative (the individual authorized by law to make health related

decisions for you). In the event of a disaster, your PHI may be disclosed to disaster relief organizations to coordinate your care and/or to notify family members or friends of your location and condition.

7. Research. First Medical Associates may use and disclose your PHI to researchers for the purpose of conducting research with your written authorization or when the research has been approved by an Institutional Review and is in compliance with law governing research. In certain situations, the need for your individual consent may be waived by a Privacy Board.

8. Serious Threats to Health or Safety. First Medical Associates may use and disclose your PHI when necessary to reduce or prevent a serious threat to your health and safety or the health and safety of

another individual or the public. Under these circumstances, we will only make disclosures to a person or organization able to help prevent the threat.

12. Minors. If you are a minor (generally an individual under 18 years old), we may disclose your PHI to your parent or guardian unless otherwise prohibited by law. F. YOUR PRIVACY RIGHTS REGARDING YOUR PHI

1. Inspection and Copies. You may request a copy of, or request to inspect, the PHI that is used to make decisions about you, including medical and billing records and laboratory and imaging reports. You have the right to obtain an electronic copy if it is readily producible by us in the form and format requested, or you may request that we provide a paper copy of your record. You may also request a summary of your record. We will provide your health information, to you or whomever you designate to receive it, usually within thirty (30) days of your request. First Medical Associates may charge a reasonable cost-based fee to cover the costs of copying, mailing, labor and supplies associated with your request. First Medical Associates may deny your request to inspect and/or copy in certain limited circumstances; however, you may request a review of our denial. There may be times that your provider, in his or her professional judgment, may not think it is in your best interest to have access to your medical record. Depending on the reason for the decision to deny a request, we may ask another licensed provider chosen by us to conduct a review of your request and its denial.

2. Confidential Communications. You may request in writing that we communicate with you in a specific way or send mail to a different address. For example, you may request that we contact you at home, rather than work or by mail. First Medical Associates will accommodate all reasonable requests. You do not need to give a reason for your request. We will comply with your request if we are reasonably able to do so.

3. Amendment. You may request a correction or amendment of your PHI if you believe it is incorrect or incomplete. You may make a written request for a correction or amendment for as long as your PHI is maintained by or for First Medical Associates. Requests must provide a reason or explanation that supports the request. First Medical Associates will deny your request if it is not in writing or if, in the provider's opinion, the information is: (a) accurate and complete; (b) not part of the PHI maintained by or for First Medical Associates; (c) not part of the PHI that you have the right to inspect and copy; or (d) not created by First Medical Associates, unless the individual or entity that created the information is not available to amend the information. First Medical Associates will notify you in writing within sixty (60) days if we cannot fulfill your request.

4. Accounting of Disclosures. You may request an accounting of certain disclosures that First Medical Associates has made of your PHI. This accounting will list the disclosures that we have made of your PHI but will not include disclosures made for the purposes of treatment, payment, health care operations,

disclosures required by law, and certain other disclosures (such as any you asked us to make). Your request must be in writing and state the time period for which you want the accounting (not to exceed six (6) years prior to the date you make the request). First Medical Associates will provide one accounting a year for free but will charge a reasonable, cost-based fee if you ask for another one within twelve (12) months. First Medical Associates will notify you of the costs involved with any additional request and you may withdraw your request before you incur any costs.

5. Requests for Restrictions. You have the right to request that First Medical Associates not use or share your PHI for treatment, payment, or health care operations. We are not required to agree to your request, and we may say “no” if we believe it might affect your care. If you pay for a service or health care item out-of-pocket in full, you may ask us not to share that information for the purpose of payment or our operations with your health insurer. In that case, we will approve your request unless a law specifically requires us to share that information.

6. Health Information Exchange Opt-Out: You have the right to opt-out of disclosure of your medical records to or via an electronic health information exchange (“HIE”) (For example, Surescripts, Commonwell, CareQuality aka The Sequoia Project, ConnectVirginia and/or the Chesapeake Regional Information System for our Patients, Inc. (“CRISP”)). However, information that is sent to or via an HIE prior to processing your opt-out may continue to be maintained by and be accessible through the HIE. You must opt out of disclosures to or via an HIE through each of your individual treating providers who may participate in any given HIE. See H. USING TECHNOLOGY TO IMPROVE HEALTHCARE below for more information regarding HIE.

7. Right to Receive a Notice of a Breach of Unsecured Medical Information. You have the right to receive prompt notice in writing of a breach of your PHI that may have compromised the privacy or security of your information.

8. Right to a Paper Copy of This Notice. You have the right to receive a paper copy of this notice at any time even if you have agreed to receive the notice electronically. You may also obtain a copy of this notice at our website — www.DrsFirst.com

9. Right to File a Complaint. If you believe your rights have been violated, you may file a complaint with us or with the Secretary of the Department of Health and Human Services (“HHS”), Office for Civil Rights, 200 Independence Avenue, S.W., Washington, D.C. 20201, calling 1-877-696-6775, or visiting www.hhs.gov/ocr/privacy/hipaa/complaints/. All complaints must be submitted in writing. You will not be penalized for filing a complaint.

G. ADDITIONAL INFORMATION

1. Patient Portal and Other Patient Electronic Correspondence. First Medical Associates may use and disclose your PHI through various secure patient portals that allow you to view, download and transmit certain medical and billing information and communicate with certain health care providers in a secure manner through the portal. For more information on the First Medical Associates patient portal, please visit our website at <https://www.DrsFirst.com>

2. Your Contact Information: Home and Email Addresses/Phone Numbers. If you provide us with a home or email address, home/work/cell telephone number, or other contact information during any registration or administrative process we will assume that the information you provided us is accurate and that you consent to our use of this information to communicate with you about your treatment, payment for service and health care operations. You are responsible to notify us of any change of this information. First Medical Associates reserves the right to utilize third parties to update this information for our records as needed.

3. Email or Downloading PHI. If you email us medical or billing information from a private email address (such as a Yahoo, Gmail, etc. account), your information may not be secure in transmission. We therefore recommend you use your First Medical Associates patient portal to communicate with us

regarding your care and/or billing issues. If you request that First Medical Associates email your PHI to a private email address, we will send it in an encrypted manner unless you request otherwise. First Medical Associates is not responsible for the privacy or security of your PHI if you request that we send it to you in an unsecured manner or download or post it on a dropbox, unencrypted USB drive, CD or other unsecure medium. In addition, First Medical Associates is not responsible if your PHI is redisclosed, damaged, altered or otherwise misused by an authorized recipient. In addition, if you share an email account with another person (for example, your spouse/partner/roommate) or you choose to store, print, email, or post your PHI, it may not be private or secure.

4. Sensitive Health Information. Federal and state laws provide special protection for certain types of health information, including psychotherapy notes, information about substance use disorders and treatment, mental health and AIDS/HIV or other communicable diseases, and may limit whether and how we may disclose information about you to others.

5. Substance Use Disorder Records and Information. The confidentiality of patient records maintained by federally assisted substance use disorder rehabilitation programs is protected by Federal law and regulations. Generally, such programs may not disclose any information that would identify an individual as having or being treated for a substance use disorder unless:

- a. the individual consents in writing;
- b. the disclosure is allowed by a court order
- c. the disclosure is made to medical personnel in a medical emergency or to qualified personnel for research, audit, or program evaluation; or
- d. as otherwise permitted by law.

(Notwithstanding the preceding, we may disclose certain information that could identify you as having a substance use disorder pursuant to paragraph 6, below.) Violation of these laws and regulations is a crime. Suspected violations may be reported to appropriate authorities in accordance with Federal regulations. Federal law and regulations do not protect any information about a crime committed by a patient either at the program or against any person who works for the program or about any threat to commit such a crime. Federal laws and regulations do not prevent any information about suspected child abuse or neglect from being reported under state law to appropriate state or local authorities.

6. Consent to Disclose Sensitive Health and Substance Use Disorder Information. The First Medical Associates Authorization & Consent to Treat form you sign as part of the registration process includes your consent to the release of federally assisted substance use disorder information, information regarding treatment of communicable diseases and mental health information for the purposes specified in this notice. If you do not wish for this information to be disclosed, you must notify us in writing and we will determine if it is feasible for us to accept your request.

7. Incidental Disclosures. Despite our efforts to protect your privacy, your PHI may be overheard or seen by people not involved in your care. For example, other individuals at your provider's office could overhear a conversation about you or see you getting treatment. Such incidental disclosures are not a violation of HIPAA.

8. Business Associates. Your PHI may be disclosed to individuals or entities who provide services to or on behalf of First Medical Associates. Pursuant to HIPAA, First Medical Associates requires these companies sign business associate or confidentiality agreements before we disclose your PHI to them. However, First Medical Associates generally does not control the business, privacy, or security operations of our business associates.

9. Authorization for Other Uses and Disclosures. First Medical Associates will obtain your written authorization for uses and disclosures that are not identified by this notice or otherwise required or permitted by applicable law. Any authorization you provide regarding the use and disclosure of your PHI may be revoked at any time in writing. After you revoke your authorization, we will no longer use or

disclose your PHI for the reasons described in the authorization. However, your revocation will not affect actions we have already taken; in other words, we are unable to take back any disclosures of PHI we have already made.

H. USING TECHNOLOGY TO IMPROVE HEALTHCARE Health Information Exchange (HIE) enables your healthcare providers to quickly and securely share your health information electronically among a network of healthcare providers, including physicians, hospitals, laboratories and pharmacies. Your health information is transmitted securely and only authorized healthcare providers with a valid reason may access your information.

How does HIE Help You? Improved access to information will enable us to provide better care for our patients.

- **Improved Care** – Access to information about your health history and medical care gives your healthcare provider a more complete picture of your overall health. This can help your provider make better decisions about your care. The information may also prevent you from having repeat tests, saving you time, money and worry.
- **Emergency Treatment** – In an emergency, your providers may immediately check to see if you have allergies, health problems, test results, medications or previous concerns that may help them provide you with emergency care.
- **Helps to Protect Privacy and Information Security** – By sharing information electronically through a secure system, the risk that your paper or faxed records will be misused or misplaced is reduced.

How does HIE help protect your medical information and keep it secure? First Medical Associates is committed to protecting the privacy and security of your health information, including the sharing and accessing of your information through HIE.

- Every HIE and its participants must protect your private medical information under HIPAA law, as well as applicable state laws and regulations.
- Information shared via HIE is encrypted, meaning it can be accessed only by authorized users. This prevents hackers from accessing your information.
- Every individual who can access your information must have their own user name and password and must receive training before they can access your information.
- The HIE records every time someone accesses your information. Upon request, the HIE can track who accessed your information and provide a report to the First Medical Associates Privacy Officer.

What HIEs does First Medical Associates participate in?

First Medical Associates participates in a number of HIEs, including, but not limited to, Surescripts (provider of medication history), Commonwell, CareQuality aka The Sequoia Project, ConnectVirginia and CRISP. (Note: This list is subject to change.)

You have choices about participating in HIE.

First Medical Associates recognizes you have certain rights related to how we share your information. You have the following choices:
